

winxnet
UNIVERSITY

What is Winxnet University?

Winxnet is here to help. It seems like there is an endless supply of **topics and vendors** that you “need” to know. Winxnet University is a program offered exclusively to our Managed Services clients to help navigate IT complexities and trends through educational speaking engagements by our **Thought Leaders and vetted industry professionals**. Have an idea for a Winxnet University topic? Send it to your Account Executive, we’d love to hear from you.

Who is Winxnet University designed for?

Topics are created specifically for our Premier Care and Select Care clients. **Technology is always changing** and evolving so we’ve designed these educational sessions to help you **stay informed from our technology experts**.

EXCELLENCE IN IT DELIVERY

Technology is critical to operating a business. The use of technology enables businesses to grow faster and operate more profitably. Because of constrained budgets and challenges in accessing IT talent, small and mid-sized organizations often think they must settle for something less than great. Enter Winxnet—we bring IT excellence to organizations of all sizes.

Winxnet Transforms the Delivery of IT with:

Expertise - A lot goes into an IT environment. Winxnet provides the right people to keep your environment productive and efficient.

Access & Availability - You can't schedule an emergency. We have guaranteed response times that work for the needs of your business.

Security - The Security landscape is constantly changing. We have the team and experts to help with all of your security needs.
